ARENA OPEN

February 25th & 26th

NHJSSC AT EEC

ARENA CLOSED

FEBRUARY NEWS

Tom & Monica Morrison with Boz Stall #70
Charlie & Sarah Morgan with Pooh Bear Stall #9

Can you believe this weather!!! This is an amazing winter! I hope you all get a lot of chances to come out and ride inside or outside. Riding outside during this time of year is unheard of so if one of your New Years' resolutions was to ride more, there are no excuses!
Enjoy!

SCHOOLING SHOW

January's show was a great success thanks to all that participated and volunteered their time to help with the show. I hear so much positive feedback from the people that come. Our stall care we provide, concessions, politeness, and organization are just a few of the comments I receive. I cannot thank our clients and students for helping enough. Way to go and thank you again!

DR. STITCH CHIROPRACTIC

It is amazing the amount of horses getting chiropractic adjustments at our facility. Dr. Stitch is scheduled for February 3rd for those of you interested in a future appointment, please contact Melissa Piennett at mbpiennett@cox.net for openings.

BEDDING

Thanks to everyone who took the time to respond back to me regarding our bedding product. I received a lot of great ideas and info. At this time I have decided we will be switching back to shavings starting in March. We will not be using both products because we do not have the room to carry both. We will need to make space to go back to shavings and this will take time. We have also added the new air exchange system in the new barn so it stays drier. Thanks again for all your feedback.

CENTER EXIT DOORS

The doors in the arena building that you entered and exited with your horse in the winter time will no longer be available for entering. These doors will be emergency exits only and will not have any outside knobs on them. They have been decreased in size and will have a panic bar for exiting only. Trainers and parents, please inform all your students and children of this change. Have them enter through the garage doors on the west side and exit through the east side. I have on order doors with a window to allow some light in but they take three weeks to get in. The doors installed are only temporary at this time. Please start this new transition immediately. Thanks for your cooperation.

We have redesigned our website and added face book. If you have any pictures from January's show or just clients' photos, please send them to kellie@elkhornequestriancenter.com and I will put them up.
